# CD-RW Compatibility test

## Step 3.5 Summary (1-4X Media)

- Purpose
  - Evaluation of the compatibility among the new disc/drive/players and the existing disc/drive/players.
- Process
  - 15 Writer \* 8 Media combination (DOW1 condition)
    - 1) Full surface packet write format at OPC-determined Pw0
    - 2) Logical Erase (PMA area)
    - 3) Full surface write at OPC-determined Pw0
  - 17 ROM reader Playback : Phase 2
  - Measurement
    - C1, Jitter, Modulation
    - Transfer Rate, Access time (Option)

# Conclusion

- Even if DOW1 condition, almost all combination shows good result (Jitter, C1)
- Some Combination shows high jitter value, but can be played back by ROM drive
